

## The Umbarger Advantage

### Fresh Steam Flaked Feeds

- Increased Feed Efficiency
- Improved Palatability
- Increased Digestibility
- Higher in Quality
- Proven SHOW RING SUCCESS

### University Tested

- In Iowa State University trials, undigested kernel passage was 14% for artificially dried corn, 11% for high moisture corn, and 2% for steam flaked corn.
- All our feeds utilize steam flaked barley, corn and oats. This steam flaking process causes gelatinization of the complex starch molecule rendering it more digestible. This change pre-digests the grains so that when fed, it becomes 95% digestible as compared to 80% digestibility of raw corn.

### The Umbarger Edge

- Steam Flaked grains for palatability and digestibility
- Ammonium Chloride to aid in the prevention of urinary calculi
- Medicated with Lasalocid (Bovatec) to aid in the prevention of Coccidiosis
- Highly fortified vitamin supplement

### Ask us about

- Umbarger Show Feeds for horse, cattle, swine, goat and dairy
- Umbarger Showmate Minerals that are specifically designed to compliment our Show Feed for cattle, horse and sheep

 CRUDE FAT, MIN.....2.5%  
 CRUDE FIBER, MAX.....8.0%  
 CALCIUM, MIN.....0.6%  
 CALCIUM, MAX.....1.1%  
 PHOSPHORUS, MIN.....0.4%  
 SALT, MIN.....0.45%  
 SALT, MAX.....0.95%  
 SELENIUM, MIN.....0.35%  
 VITAMIN A, MIN.....2,000 IU/LB

Lamb Finisher 16% is our highest energy per pound ration. If quick cover is what you are looking for, this is the ration.

• **Top Choice Ewe 12%** •

*Complete Lactating Ewe Ration*

**MEDICATED**

**GUARANTEED ANALYSIS**

CRUDE PROTEIN, MIN .....12.0%  
 CRUDE FAT, MIN.....3.0%  
 CRUDE FIBER, MAX.....6.0%  
 CALCIUM, MIN.....0.35%  
 CALCIUM, MAX.....0.8%  
 PHOSPHORUS, MIN.....0.3%  
 SALT, MIN.....0.25%  
 SALT, MAX.....0.75%  
 SELENIUM, MIN.....0.23%  
 VITAMIN A, MIN.....1,200 IU/LB

Ewe Ration 12% is a high energy ration used to help maintain desired body condition on breeding ewes and is also an excellent flushing ration.

**Umbarger's Management Tips:**

- Feed Umbarger Show Feeds as sole grain ration.
- Free choice mineral and clean fresh water should be made available at all times.

- When changing from one feed to another, always mix feeds over a period of one week.

- Provide quality grass hay.
- Weigh animal regularly and chart weight gain.
- Worm animal periodically.
